

**Governor Martinez...
The “same old”
policies won’t cut it!**

**Choose the road
that will make things *better*
for New Mexico.**

Tax giveaways to greedy corporations do nothing to create jobs.

Middle class families just get stuck with the tab.

Yet you vetoed a law to require a full review of the tax breaks we give big corporations. Why?

This would have allowed us to determine if our tax dollars really are being used to create new good-paying jobs here in New Mexico.

And now you propose giving even more corporate income tax breaks—

like one that would shift the corporate taxes from manufacturing and mining industries onto retail stores where we buy our products.

Close tax loopholes for out-of-state corporations.

Support our small businesses that pay their fair share.

Make government more accountable and transparent, protect the vulnerable, and invest in our vital community services like schools and public safety.

Save existing jobs and create more good-paying jobs.

Provide financing for small businesses and job creation tax incentives to New Mexico businesses that *actually* hire new workers.

**New Mexico is at a crossroads...
Call Governor Martinez at (505) 476-2200
Call your Legislators at (505) 986-4300
Tell them we need jobs, not more corporate giveaways.**
