

In 2008 the Republican party nominated Steve Pearce over Heather Wilson because he was more conservative and didn't have the baggage. **It was the right choice then.** But, too many New Mexico voters were swept up in the *false-hope tsunami* and there was simply nothing any Republican seeking national office in our state could have done. **THAT WAS THEN...**

TODAY, according to national polls, even New Mexico Democrats are worried by Obamacare, the bailout charade, the price of gas, and the scarcity of jobs.

NOW Republicans have the rare opportunity to take the Senate, if we chose someone electable; someone without a mixed voting record that offends both sides.

Are we able to AFFORD a big-spending career-politician more NOW than we could four years ago? DO WE WANT TO?

THE TRUTH IS...

Democrats Can't Wait to Drill Down and Hammer Heather's History:

Wilson backed one of the largest tax hikes, welfare expansions and government-run health care plans in history, the precursor to the federally mandated health care we now have with Obamacare!

Erick Erickson of RedState & CNN:

"The number ONE goal of conservatives in 2012, other than defeating Barack Obama, has got to be defeating Heather Wilson in New Mexico."
