Again, more untrue information. I never spoke to anyone at the awards show about representing you Saturday night. A lady named Tiny Bustos recognized Angel, and asked her where you were. Angel said that you were unable to make it. I would like to know who the name of the man was who said he spoke to me. It is only fair that I have an opportunity to address the person who made this false statement. I spoke to no one. The way to find out the truth is to discuss the issue with everyone involved.

James

James for your information I have been informed about Many negative comments you have made and for the record Margaret told me about Saturday night and also how you refused to represent me when asked about me. The person that asked about me, I ran into him Tuesday night and he said the same. Don F. Mentioned it to me and I told him Margaret had already told me.

That okay James I do not need to meet with you I have seen your interest in supporting me. I asked you a long time ago to get involved in the R party, you didn't and now they are looking for someone to run against me. As the Treasurer mentioned to me he told all his exempt " if I do not have a job neither do you" he said he told them after November they can submit letter of interest but he is only keeping who helped him.

Do not care to meet regarding that issue.

Mary

Mary,

I have been informed that you were advised that I made certain comments regarding acquiring nominating signatures at the awards banquet on Saturday night. The allegations made are untrue, as the issue of signatures was never talked about.

I am requesting a meeting with you, Francisco, and Margaret as soon as possible to resolve this issue.
