

Agriculture and Clean Energy Summit

A workshop for land owners, farmers, policy makers and concerned citizens

Join State Representative Joseph Cervantes, Dr. Joel Brown, Department of Animal and Range Sciences, New Mexico State University, and the American Farmland Trust, for a summit on agriculture and clean energy.

Learn more about how proposed clean energy legislation will impact agriculture in New Mexico. The USDA, agriculture professionals, and economists will discuss opportunities for New Mexico's farmers in clean energy legislation and be available to answer your questions.

A light lunch will be served. Please RSVP with Lauren Armstrong using the information below.

10:00 am - 2:00 pm
Tuesday, September 15th
(Registration begins at 9:30 am)

New Mexico Farm and Ranch Heritage Museum
4100 Dripping Springs Road
Las Cruces, New Mexico
